- Do not use near or around flammable/combustible materials or liquids.
- The bulb and unit can get hot during use. Turn off the power and allow the unit to cool down for at least 20 minutes before working on the unit.
- When replacing the bulb(s), use only a JCD Halogen bulb (100 Watt max) of the same size. Never use a bulb with a higher wattage than the stated maximum wattage allowed for the fixture. Using a higher wattage bulb may cause a fire hazard and/or cause damage to the unit.
